For Council

I am Committed

I will provide Honesty

I will be Approachable

I will Advocate for You

What my ultimate goal is, is to promote engagement, celebrate accomplishments, promote wellness and to gain interest of the community.

We need to stop fighting our own people and creating barriers. Once upon a time our Youth mattered. Our Elders mattered. Our People mattered. What legacy are we really leaving for our Children?

*This is Your
Community... Its time
for you to matter...*

Let talk about our wants and needs together. Please do reach out to me if you would like to sit and talk or even have a visit! You can reach me by email or phone at:

Acknowledging

When we Acknowledge that we need to move forward, we acknowledge that we need a new understanding, and when we acknowledge that we need a new understanding, we acknowledge that we need to learn from our past.

Understanding

in recognition of the those who have not had the opportunity to learn the whole story or do not have an understanding the diverse opinions throughout our communities, it is important that we acknowledge that there is a need to inform the community.

Communication

Its time to start having real, honest, difficult conversations and do the real work for our community. To have an understanding of what that means and how to compassionately address these issues and symptoms of colonization. Communication is key to building healthy relationships, its time to reestablish the relationship between our community and Wasauksing Administration.

◆ We need to creatively create spaces for our children and youth to gain experience, receive guidance and earn money if we expect them to become successful members of this community.

◆ We need to ensure that an opportunity is provided to our community members to develop and maintain the belief and awareness that change is the direction of wellness and that it is possible to attain.

◆ Maybe it's not about trying to fix something that is broken, but perhaps maybe it's about starting over and creating something better? Life And Wellness will always be an Ongoing Task. From time to time, we may be required to start from square one, but sometimes in the best interest of progress it is necessary to take a step back and re-evaluate Where we have been; Where we are at; Where we are trying to go.
